S/053/071

Purpose of Inspection:

I was in the area and the cable across the road was down so I decided to inspect the site. Because the access to the site has been closed, this site has not been inspected for several years.

Inspection Summary:

The quarry has not changed much since my inspection in July of 2002. A portion of the road into the site has been realigned since my last visit. The quarry does not cover a large area, total disturbance at the site including the road into the site is still less than 5 acres.

Pictures were taken of the site and are included in this report.

Directions to the site:

The site is located ~100 feet past the Shivwitts Reservation cattle guard located on the Motaqua Road. The quarry is located on top of the ridge ~1 mile from the road.

GPS data:

None gathered
